

ARCHYL G. YMBOL

Gravahan, Matina Crossing, Davao City | 09664211137 | ymbolarchyl@gmail.com

OBJECTIVE

Computer Science student seeking an OJT or internship opportunity where I can apply and improve my skills in web development, UI/UX design, database systems, and software development. Interested in creating clean, user-friendly, and practical digital solutions while continuously learning new tools and technologies. Eager to gain real-world experience, support project tasks, and contribute with adaptability, attention to detail, teamwork, and willingness to learn.

EDUCATION

Bachelor of Science in Computer Science

University of Mindanao | Currently Enrolled

Davao City

Current Student

High School Diploma

Cabadbaran City National High School | Graduate

Cabadbaran City

July 2023

TECHNICAL SKILLS

Core Skills: UI/UX Design, Figma, Figma Layout Animation, Interactive Prototyping, WordPress, Elementor, Laravel, Graphic Design, Web Layout Design, User-Friendly Interfaces.

Design and Frontend : Figma (UI layouts, prototyping, and layout animation), HTML, CSS, JavaScript, WordPress, Elementor, clean interface design.

Backend and Database: PHP, Laravel, Python, Django, MySQL, SQLite, Database Design.

Other Technologies: Git and GitHub, Machine Learning, Artificial Intelligence, Cybersecurity.

Soft Skills: Adaptability, attention to detail, willingness to learn, communication, problem solving, teamwork.

WORK EXPERIENCE

Tarpaulin Printing Shop | Tarpaulin Layout Designer

Cabadbaran City

2023 | 6 Months

- Designed and assisted with tarpaulin layouts and visual materials based on customer requests during senior high school work experience.
- Applied basic graphic design principles such as text layout, spacing, readability, visual hierarchy, and print-friendly composition.
- Revised designs based on feedback and helped prepare clear, client-appropriate outputs for printing.
- Built practical experience in graphics designing, customer communication, attention to detail, and deadline-aware work.

PROJECTS

- MetaLift Construction Management System:** Laravel, PHP, and MySQL web system for digitizing construction operations, including project, team, inventory, and financial management
- Gym Membership Website Design:** WordPress and Elementor website design project focused on gym membership page layouts, visual hierarchy, responsive sections, and smooth animation effects to create a modern and engaging fitness-themed user experience.
- Integrated Restaurant System for Employees and Owners:** PHP, MySQL, and JavaScript restaurant management/POS system for orders, inventory, sales, and reporting.
- Python Programming Concepts Using Django:** Django and SQLite web application demonstrating Python programming concepts, OOP, and web development fundamentals.
- Garbage Classification Using MobileNetV2 and EfficientNet-B0:** Python and TensorFlow machine learning waste classification project with a mobile-friendly interface.
- Dota 2 Match Outcome and MVP Prediction:** Python and Scikit-learn machine learning project for predicting match outcomes and MVP players using statistics.

CERTIFICATIONS

- Information Technology Specialist: Databases - Certiport / Pearson VUE, *May 2025*
- Information Technology Specialist: Cybersecurity - Certiport / Pearson VUE *May 2026*
